Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

* These figures show the fluctuations of the series when the original data shown on pp. 254, 255 of this issue have been corrected for seasonal variation and secular trend, as described in the REVIEW for April, 1919, p. 139, and the *Supplement* for July, 1919, pp. 7–10.

† The corrected items of the series are computed from the *three months moving averages, centered,* of the actual items.

‡ The original items for this series, upon which the corrected items are based, apply not to the entire month, but to the first day of the month.

§ The original items for this series, upon which the corrected items are based, apply not to the entire month, but to the last day of the month.
